📍 Robert-Preußler-Straße 28

📅 25.09.2000

## Profile

---

An aspiring human-computer interaction specialist with exceptional communication and organizational skills acquired through various volunteering projects. Through my university degree and internships, I have developed excellent attention to detail, analytical thinking, and multitasking abilities. I have a keen interest in the space industry, but also in the design and medical sectors.

## Education

---

## Interests

---

### Volunteering

I am interested in my self-growth and I explore different fields and take upon new challenges and experiences. Thus, I have participated in many volunteering activities:

- Sports event volunteer
- Business event volunteer
- Vice-Chair of the Psychology Society
- Student trustee at Bangor University
